About the Role

The post holder will be working for Nottingham City Council, Enviroenergy department as an EE Monitor Technician. The post holder will be required to undertake high quality electrical work, mechanical installations or associated infrastructure works of a specialist nature on a local

and national basis. The role predominantly supports our local district heating customer base but will also include works on the national domestic properties within our portfolio of clients. The post holder will have a varied and exciting role, servicing and maintaining the current prepayment solution installed in Nottingham district heating properties, installing our own in-house decentralised energy payment metering solution the EE Monitor, commissioning of these and undertaking all other installation works, this could be fitting a router, installing a data logger solution, or installing a heat meter on site and any other associated works as required. The post holder will be required to undertake work on the prepayment metering upgrade project for 5000 domestic properties in the City. The work will involve the removal of the old prepayment units and installation of the new prepayment unit, associated commissioning of this and completion of minor works certificates. Although the post is predominantly looking after our Nottingham district heating network customers, the post holder may be required to travel across the UK to complete works as and when required, with some overnights stays required for ongoing contracts. Nottingham City Council Enviroenergy are an innovative forward-thinking team, the post holder will be heavily involved in the development and delivery of new solutions to the decentralised energy market.

About You

The ideal candidate will have:

NVQ (Or equivalent) Level 3 qualification in an Electrical discipline

18th Edition Wiring Regulations & Achievement Measurement 2 (AM2)

Able to read and understand technical diagrams and blueprints

Experience of working in a customer facing environment

Ability to perform acceptance testing on mechanical/electrical products and complete the necessary quality sign off documentation

Hold a full current driving licence

Preferred but not essential: Electrical Inspection and Testing - 2391

- The role requires you to participate in the on-call rota.

You can find the job description for this post

At Nottingham City Council we believe that work is what you do, not where you do it. We

offer different working arrangements, depending on the role, including hybrid working.
