Electric / Electromechanical Engineer

Milton Keynes

£40,000 - £47,000 + Structured Progression + Training + Company Benefits + Development + Pension + Holiday + Abroad Travel opportunities.

Are you looking for clear structured progression with a company that invests in its candidates and provides them with world-class manufacturer training?

Are you a Electrical or Electromechanical engineer looking to join a global leader of automation and pneumatic technology?

My client are a global manufacturer of pneumatic technology for industrial automation that supports customers in every industrialized nation around the world. Making this an exciting opportunity with abroad travel for those who want it!

This company is constantly growing and its technical electrical division is its biggest department with all promotions and progressions happening internally. Your career at this company will be set out clearly from the beginning showing you what your future can be like from day one for the successful candidate.

Here's your chance to join my client's company and provide product support to their European subsidiaries. The role involves answering technical questions, assisting with customer applications and troubleshooting. The right candidate would come from an electrical or electromechanical background with knowledge of electrical actuators being desired but not essential.

The Role

The flexibility to occasionally travel within Europe. (Twice a quarter)

Supporting European Clients and their needs.

Applying product knowledge and technical skills to problem-solve.

Design and deliver training courses/presentations to client and customers.The person

Electrical, Electromechanical, Mechatronics background

HND or Degree in Electrical, Electronics, Software or Electromechanical Engineering

Knowledge of PLC's, Ladder or Structured text languages or other software (Desired)

Reference Number: (phone number removed)
