Company: Multitech Site Services Ltd

Location: United Kingdom

Category: other-general

Electrical Apprentice x 3

Vaious locations in and around London, West & South regions, Milton Keynes

Multitech Site Services is a leading contractor specialising in the supply of temporary electrics, plumbing and associated site services to the UK construction industry. We are part of the Sdipotech group of companies with a primary focus on infrastructure segments critical to well-functioning societies and to welfare.

About this Position:

As part of our annual intake of new apprentices you will start your career to become a qualified electrician. The apprenticeship will run over 4 years studying Electrical Installation and at the end once passed you will be able to apply for a Gold JIB card.

At the start of your journey with us and even before you start with the college, we will provide you with time in our workshop learning workplace skills such as manual handling, enhanced health and safety, introduction to electrical skills and understanding under an experienced team, preparing you for the next chapter.

When you are ready, you will be paired with a Lead Electrician who will train and support you in electrical skills whilst working on the sites of our customers. At the same time, we will also provide you with an experienced mentor who has in-depth understanding and knowledge of the apprenticeship journey and electrical industry. You will visit multiple construction sites each day and gain a broad and robust understanding within a short space of time of what it takes to be a temporary site services electrician.

Through your time with us you will learn the whole product and service lifecycle and at the

end of the apprenticeship have the opportunity to become a qualified Electrician and have continued employment with our team.

Location

Your initial training will be at our workshop in Essex, after this you will be partnered with a qualified electrician covering various locations as part of our regional team.

College

The apprenticeship will be provided by a local college to you (we will help organise this) and you will be employed on a day-release basis – this means you get paid for the day you are at college.

Pay

Initial pay will be based on national minimum wage for your age banding, and you will be supported through the full apprenticeship with pay increasing as your skills develop.

Requirements:

The successful candidate will be able to demonstrate a minimum of Level 2 in English and Mathematics and is required to commit to a 48-month apprenticeship with Multitech starting in September 2023.

Essential

A driving licence and access to a vehicle in order to be able to access the workplace or meeting point of your allocated supervisor.

The ability to complete manual work as you will do heavy lifting of equipment in varying conditions.

Benefits:

As well as the usual benefits you would expect, we go further and provide you with

Paid additional training

Weekly pay

31 days annual leave inclusive of Bank Holidays

Monday to Friday work pattern

Full uniform provided plus £70 boot allowance per year

Free wellbeing and mental health support

Non-Contributory Private Medical Insurance

Non-Contributory Dental Insurance

Life insurance scheme

Gym Discounts

Take a look at our careers section of our website to find more about the different routes available and our employee experience.

Please submit CV and covering letter no later than 3rd May 2024. Please be advised the advert may close sooner depending on level of application received.
