Electrical Contracts Manager

[Apply Now](#)

Company: Handley James

Location: Manchester Area

Category: other-general

I am currently working with a well-established multi services contractor. This company has an excellent reputation and is reputed for the high standards of work they deliver. Having won and retained a number of new accounts, our client is now looking for an Electrical Contracts Manager to join and strengthen their services team. Managing multi discipline projects in commercial, education, or council-based work streams. Working cross functionally with internal and external stakeholders, your main responsibilities will be: electrical projects in multi discipline building services schemes for asset renewal, refurbishment, and new build in Education, Council Buildings, and commercial environments. multi discipline electrical projects teams on both a direct and subcontract basis cross functionally with other managers on resource and capacity and sustain high standards of work and develop the team. Experienced in the Electrical services industry you will have gained exposure to a retail, education, commercial or council client base. Ideally you will have managed multidiscipline teams on both a direct or subcontract basis. Experienced in managing multiple projects/work-streams, allocating and scheduling work and ensuring deadlines are hit is key. You will be C&G or NVQ Level 3 in electrical services qualified and will have gained experience at management/leadership level. Most importantly you will be driven, ambitious and looking to progress your career as there is excellent opportunities for growth with this role. This is an excellent opportunity for someone to join an established, secure, and growing company in order to progress their career. This role offers immediate challenge as well as the opportunity to be involved, and lead, further projects. Offering an attractive starting salary alongside an excellent benefits package.
