Electrical Engineer

REF: EEEUR

Location: Mainland Europe

Salary: €60000 - €70000

Professional & Technical

A well respected, award-winning M&E Contractor focusing on delivering Critical Infrastructure Projects across various sectors, is currently seeking an ambitious and driven Electrical Engineer for a high-profile Data Centre project in Europe. You will be working for an innovative, forward-thinking contractor that operates a diverse business model. With the order book full until 2024, there is excellent scope for a credible Electrical Engineer to play a pivotal role in helping the growth and expansion of the business over the coming years.

With accommodation and all expenses paid for, you won't just be a number in the business, and this is reflected in the excellent package on offer for the right candidate. Alongside the job benefits, this role offers the opportunity to add a flagship project to your resume. This is a fantastic opportunity to transfer into a booming sector and will continue to do so over the coming years. This industry is ever-growing and the need for Data Centre Infrastructure continues to grow.

Electrical Engineer Profile:

5 – 7 experience working with a recognised Electrical contractor

Excellent organisational and project planning skills

Excellent negotiation, problem-solving and decision-making skills

A trade background with a third level qualification

Degree qualified in Electrical discipline.
