

Electrical Engineer

[Apply Now](#)

Company: Serve Talent Ltd

Location: United Kingdom

Category: architecture-and-engineering

We are currently seeking a skilled and experienced Electrical Engineer to for an engineering business in Norwich. As an Electrical Engineer, you will play a crucial role in the development and lifecycle management of the companies product range, with a focus on analogue and digital circuit designs.

Responsibilities:

Collaborate with the Chief Engineer to develop analogue and digital electrical circuit designs.

Create interface and equipment specifications.

Design test specifications for prototypes and production units.

Support interdepartmental testing of equipment.

Assist in creating bid documents and compliance matrices for proposals.

Willingness to travel and work both onshore and offshore.

Present technical information to audiences with varying levels of technical experience.

Work both independently and as part of a team.

Qualifications and Experience: Essential:

Experience in circuit and wiring design, simulation, layout, testing, and evaluation

Proficiency in creating interface and equipment specifications

Ability to create test specifications for designs and testing

Familiarity with supporting proposals through bid documents and compliance matrices

Willingness to travel and work offsite

Strong presentation skills for conveying technical information

Ability to work independently and collaboratively

Desirable:

Knowledge of current CE regulations

Degree/HND in Electrical and/or Electronic Engineering

Experience with PCB layout packages

If you have a passion for electrical engineering and a strong background in circuit design, we invite you to apply.

To apply, please submit your CV highlighting your relevant experience and qualifications or contact Lewis Woollard direct on 01603 415 100.
