About the Role:

As the Electrical Installation Manager, you will play a pivotal role in managing and coordinating our company's installation activities. Working closely with the Management Team, you will ensure effective communication between staff teams, subcontractors, and customers.

About the company:

Our client is a reputable company committed to delivering innovative solutions and exceptional service to their clients. They pride themselves on offering high-quality, reliable products

and services to help clients optimise their operations, improve energy efficiency, and enhance occupant comfort. They cater to a wide range of sectors, including commercial, industrial, and the public sector.

Key Responsibilities:

Line manage and lead all installation-related works.

Schedule all installation works, including ordering and scheduling subcontractor works.

Regularly review sites in line with program requirements and monthly valuation procedures.

Report on completed work for monthly valuations and payment of subcontractors.

Inspect installation works to ensure compliance with quality standards and regulations.

Serve as a point of contact between staff teams, subcontractors, and customers to ensure a smooth transition between installation and commissioning activities.

Ensure compliance with all company policies and procedures, including health and safety standards.

Represent the company as needed.

Management Responsibilities:

Monitor and manage the performance of all installation work through regular update meetings and annual reviews.

Collaborate with the Management Team to provide data reports for financial reporting, forecasting, and planning activities.

Initiate and conduct disciplinary/capability actions for subcontractors when necessary.

Coordinate installation-related works to ensure adequate coverage at all times.

General Responsibilities:

Ensure electrical test sheets are produced for all works and included with all Operation & Maintenance documentation.

Must Haves:

UK Full Driving License

Experience with Electrical installation within a commercial environment

Qualified electrician in a commercial environment

Join with our client and become an integral

part of our installation management process. Apply now to embark on an exciting career with us!
