

Electrician

[Apply Now](#)

Company: Optima Site Solutions Ltd

Location: Finchley

Category: architecture-and-engineering

Field based Electrician required for our client who currently design and manufacture smart home energy storage devices. They are looking for a qualified Electrician to carry out installations and warranty work in customer homes or businesses as required to the schedule agreed with the Installations Manager.

This is predominately a field-based role, covering the UK and based in the headquarters and manufacturing site in North London.

The ideal candidate will be a qualified electrician with a solid technical / electrical background, preferably a time served electrician with a minimum of 3 years' experience in a similar post. It would be advantageous to have experience of renewable energy, technical customer service or electrical/electronic equipment maintenance, however this is not a requirement.

Full training will be provided to a qualified Electrician, if no experience within renewables is held.

Package:

- * Up to £45,000 £48,000 per annum dependent on experience.
- * 25 days of holiday per annum.
- * Company Pension.
- * Company Vehicle.
- * Expenses covered when an overnight stay is required.

Duties:

- * Carry out installations and warranty work in customer homes or businesses as required to the

schedule agreed with the Installations Manager.

- * Co-ordinate closely with the Installations Manager on the agreed schedule and job requirements and support.
- * Maintain the technical standard and quality of electrical work carried out by electrical operational staff and 3rd party contractors
- * Ensure the required technical standards and processes are followed at all times.
- * Provide an effective response to Health and Safety issues, to ensure the safety of customers and operational staff in line with company procedures and other such legislation.
- * Able to recognise issues and liaise closely with the Technical team and provide feedback on any suggestions, ideas, or challenges as they occur in the field.
- * Commit and contribute to the continuous improvement of the companies field processes – e.g. site surveys, installations, warranty.
- * Maintain and manage a calibration log for all equipment.
- * Service and maintenance of Energy Storage units in customers' homes.
- * Ensure Van stock levels are always at an appropriate level.

Qualifications:

- * NVQ/SVQ Level 3 in Electrical Installation
- * Work or City & Guilds 2360 Part 1/ 2 (A/B) or C&G 2365 or C&G 2330 or C&G 2356 and AM2*
- * C&G 2391 or G&G 2394 and C&G 2395 *
- * C&G 2382 current edition, or EAL equivalent.
- * UK Driving license held for at least one-year with no endorsements.
- * Practical knowledge of Health and Safety legislation.
- * Fully conversant with safe systems of work, risk assessments and compliance with CDM regulations
- * Has held the post of NICEIC (or equivalent) EQS for an Approved Contractor Scheme (desirable but not essential)
- * Safety systems
- * Basic knowledge of renewable energy (desirable but not essential)
- * Basic understanding of programming concepts and techniques (desirable but not essential)
- * Knowledge of internet connectivity devices and troubleshooting issues

All the above qualifications are preferred, but a candidate will be considered if only some are held
