Company: PDA

Location: United Kingdom

Category: other-general

Job Purpose

This is a key position, carrying out planned and reactive Electrical maintenance across a number of sites in the area.

The purpose of this role is to carry out technical repairs and minor PPM's. You will ensure that all technical and compliance paperwork is always completed and up to date. All work will be completed to the highest standards in an efficient and cost-effective manner, whilst complying with the laid-down company Health and Safety policy.

Key Accountabilities

Complete the Planned Preventative Maintenance (PPM) schedule within agreed timescales and to ensure all necessary paperwork is completed

Respond promptly and positively to service all requests from the Helpdesk and to assess the requirements of the job and carry out repairs as and where necessary

Conduct emergency lighting tests and repairs

Identify non-repairable faults in plant and machinery and promptly advise the line manager of findings

Ensure that compliance documentation is always completed and up to date

Advise the on-site customer (manager) of any repair and maintenance issues that are likely to affect the smooth running of the site

Carry out surveys and complete reports as required

Always comply with company Health and Safety policy

You will be part of a 24/7 call out rota (1 week in every 4)

Knowledge, Skills and Abilities Required

City and Guilds 236 Part 1 + 2 or City and Guilds 2330 Levels 2 and 3 or NVQ Level 3 in Electrical Installation or equivalent.

18th Edition Wiring Regulations

3 Phase Electrics and its applications

Achievement of PPM schedule within agreed timescales

Respond to service call requests within agreed timescales

Candidates must have a full and valid driving licence and full use of their own motor vehicle.
