Electronic Engineer

Electronic Engineer

Gwent

23917/510

£45,000 – £55,000 & comprehensive benefits package

Benefits Package:

o **£45,000 – £55,000**

o **Bonus Scheme**

o **Group pension**

o **Life Assurance**

This thriving South Wales component manufacturer is looking to further strengthen their existing design function, following the acquisition of a number of lucrative new contracts. The company has an enviable reputation for design excellence and is the supplier of choice for many of the worlds leading equipment manufacturers.

Role & Responsibilities:

o Reporting into the Engineering Manager, you will work as an integral part of a multi-disciplined team of Electronic, Software, Mechanical and Test engineers

o You will be responsible for all aspects of new product introduction, taking products from initial concept to full production release

o Working closely with a number of key customers, you will help define their requirements

and develop robust Electronic design solutions for specific projects

o You will design, prototype, assemble and test electronic circuits, including the design of complex solutions using embedded microcontrollers, hall effect sensing and inductive and optoelectronic systems

o Deliver all aspects of projects to agreed delivery timescales and cost.

Knowledge, Skills & Experience:

o At least 5 years Electronic Product development experience within an Electro-Mechanical design environment

o Experience of Electronics design using Embedded solutions

o HNC in Electronic Engineering

Suitable candidates should apply immediately by calling Richard Davies on 02920 894900 or by sending your CV directly to him at k
