

## Electronics Engineer Full TimePermanent

[Apply Now](#)

Company: First Recruitment Services

Location: Eastbourne

Category: other-general

### The role

includes:

Designing, implementing, and testing embedded C code for microcontroller systems.

Developing and maintaining computer software for electronic locking and access control products.

Designing PCB layouts for electronic circuits.

Assisting with the integration of firmware with PCBs.

Staying up to date on industry trends and best practices in firmware development and PCB design.

To be a perfect match for the Electronics Engineer role, you will have a Bachelor's degree in Electrical Engineering, Computer Engineering, or related equivalent experience, proven experience in embedded systems development using C/C++ programming, experience with SPI, I2C, UART and Ethernet, and ideally have experience of encryption algorithms.

If you are available to start before the end of May and can work from my client's base in Eastbourne, please apply asap.

Wild Recruitment Ltd T/A First Recruitment Services is acting as an employment agency in relation to this vacancy
