Company: Rise Technical

Location: High Wycombe

Category: other-general

An excellent opportunity for an individual with electronics/electromechanical manufacturing experience looking to join a rapidly expanding, industry leading company who can offer specialist training.

Do you have experience in an electronic/electromechanical manufacturing environment? Would you like to join a rapidly expanding global business?

This well established company design and manufacturer a range of specialist electromechanical products for clients around the world. They have gone from strength to strength in recent years, claiming an increasing share of their market. Due to this, they are now busier than ever and are looking for an Electronics Technician to join their expert team. In this role you will be tasked with assembling and testing a range of specialist equipment for clients around the world. This will involve electronic and mechanical assembly, product testing, calibration and repair. In addition to this, you will be provided extensive training in order for you to become an expert within their industry.

This role would therefore suit an individual with proven experience in electronics/electromechanical manufacturing, who is looking for a new challenge and the chance to join a global leading company.

The Role:

Assembly & test of specialist equipment

Calibration and repairs

Training provided

£30,000 - £33,000 + Training + Excellent Benefits

The Person:

Experience in an electronics/electromechanical manufacturing environment

Strong soldering skills

Able to read schematics and diagrams

Commutable to High Wycombe area
