

Elixir Software Engineer

[Apply Now](#)

Company: Track24 Limited

Location: United Kingdom

Category: computer-and-mathematical

Track24 is seeking an experienced Elixir Software Engineer to join our team.

As an Elixir Software Engineer at Track24, you will be responsible for developing and maintaining our flagship product, AtlasNXT.

AtlasNXT is a cutting-edge safeguarding and communications SaaS platform that is designed to revolutionise the way organisations protect, inform, and engage their teams. Built using Elixir and Phoenix, AtlasNXT offers a powerful and scalable solution for organisations worldwide.

We are currently looking to find engineers who have Full Stack Elixir experience, who would be keen to support primarily on the front-endAs a key member of our engineering team, you will have the opportunity to work on exciting features and contribute to the ongoing evolution of AtlasNXT.

Requirements

To be considered for this position, you should have:

- A strong background in Elixir development (ideally with recent front end experience)

- Experience building and maintaining production-grade web applications using Elixir and Phoenix

- Knowledge of modern front-end technologies such as JavaScript, HTML, and CSS

- Experience with PostgreSQL or other relational databases

- Strong problem-solving and analytical skills

Excellent communication and collaboration skills

Experience working in an Agile development environment

Additionally, experience with location-based products or SaaS platforms would be a plus.
