

EMS Project Manager

[Apply Now](#)

Company: Vertiv

Location: United Kingdom

Category: business-and-financial-operations

Who are we?

At Vertiv, we build products that keep critical technologies running 24/7. We are proud we were the first to protect mainframes with precision cooling systems. We were the first to introduce an integrated enclosure system to distributed networks. We help some of the largest names in the industry bring new capacity online faster and at a lower cost when search and social media increase demand for storage and computing. Our portfolio spans power, thermal and infrastructure management products, software, and solutions, and is complemented by a network of nearly 250 service centres worldwide.

We are now looking for an **EMS Project Manager** to join our team **Burnfoot, Co. Donegal**. We are seeking a detail-oriented and collaborative BIM Coordinator to join our team and contribute to the successful implementation of Building Information Modelling (BIM) processes for our projects. As a BIM Co-ordinator, you will play a crucial role in ensuring accurate model coordination, data integration, and effective communication among project stakeholders. Your expertise in BIM software, strong organizational skills, and ability to work in a multidisciplinary environment will be essential for excelling in this role.

KEY ROLE ACCOUNTABILITIES:

Management of projects from inception to on-site commissioning and client handover.

Define the scope of projects in collaboration with senior management.

Creation of a detailed work plan which identifies and sequences the activities needed to successfully complete projects.

Monitor the progress of projects whilst making any adjustments necessary to meet changing needs and requirements.

Manage day-to-day operational aspects on multiple projects.

Allocate resources and assign responsibilities for the development of detailed software code for automation, control and energy management data acquisition applications.

Strong interpersonal skills necessary to lead a team.

Ensure that projects are completed to strict budgets and that project tracking documentation and variations are kept up to date for ongoing reviews.

Providing regular reports on progress to senior managers and the division manager.

Ensure project documentation is completed against strict timeframes to conform to client standards.

Negotiating with contractors and suppliers for materials and services

Ensure client satisfaction on project completion.

Evaluation of the performance of each project and develop lessons learned for use on future projects.

ESSENTIAL QUALIFICATIONS & EXPERIENCE:

Exposure to electrical design and production

Be efficiently organised and able to prioritise multiple tasks.

DESIRABLE CRITERIA:

HND or BSC in Electrical Engineering/Computing with a minimum of 2 years relevant experience in a similar role

Knowledgeable background across a range of hardware and software PLC systems

If **YOU** are the person we are looking for, feel free to apply and let's start drafting your future career in a healthy and growing environment.
