

## Engineering Technical Trainer

[Apply Now](#)

Company: National Express West Midlands

Location: United Kingdom

Category: business-and-financial-operations

National Express has an exciting opportunity to join us as an **Engineering Technical Trainer**.

You will be based at our location in **Miller Street** [Birmingham] however will support our Engineering Teams **across the Midlands**.

As part of the role you will liaise with internal stakeholders to assess and identify training needs and ensure those needs are met. You will provide learning opportunities for the engineering teams, designing and delivering in-house training courses as appropriate.

You will identify and maintain relationships with third party providers where necessary, to ensure quality of service delivery.

You will report on key training metrics and maintain up to date training records, reviewing course feedback to implement improvements needed.

Along with supporting our Apprentices you will assist with the delivery of Light Vehicles mechanics to PSV technicians training, deliver inductions for new starters and create an enjoyable and supportive learning environment for our Engineering Teams.
