Job Description:

Coveris is seeking a dedicated and hardworking Erema Operator to join our team. As an Erema Operator, you will be responsible for operating the Erema machine, which is used for recycling our waste back into a pellet. Your main duties will include setting up and adjusting the machine, monitoring the production process, and troubleshooting any issues that may arise. You will also be responsible for ensuring the quality of the recycled materials and maintaining a clean and safe work environment. Some of the key responsibilities of this role include:

Operating the Erema machine whilst maintaining a consistent feed and prevent blockages

Monitoring the production process and providing checks on the pellet produced with our Technical Department.

Troubleshooting any issues that may arise during production

Ensuring the quality of the recycled materials meets company standards

Maintaining a clean and safe work environment

Required Profile:

To be successful in this role, we are looking for candidates who possess the following skills and qualifications:

Prior experience working in a manufacturing or production environment

Knowledge of Erema machines and plastic recycling processes is preferred

Some mechanical aptitude and troubleshooting skills

Excellent attention to detail and ability to work with precision

Organised and calm under pressure

Physically fit and able to lift heavy objects

Offer:

In return for your hard work and dedication, we offer the following benefits:

Competitive salary and benefits package

Opportunities for career growth and development

Training and support to enhance your skills and knowledge

A positive and inclusive work environment

Modern and well-equipped facilities

If you are a motivated individual with a passion for manufacturing and recycling, we

encourage you to apply for the Erema Operator position at Coveris. Join our team and make a positive impact on the environment while advancing your career.
