

## ERP Project Director

[Apply Now](#)

Company: Focus Cloud

Location: United Kingdom

Category: computer-and-mathematical

**Company Description:** The company specialises in providing value-oriented IT services across the entire project lifecycle, encompassing operating system planning, integration, operation, and maintenance. It delivers high-quality products and services to clients globally, boasting offices in the United States, United Kingdom, Germany, France, Canada, India, China, and the Asia-Pacific region.

**Job Description:** The company is in search of an ERP Project Director to join its project management team. The Project Director will oversee strategic and complex IT projects and programs, ensuring their successful implementation and managing professional change management processes. Responsibilities include:

- Leading multiple project managers and project support teams, overseeing project activities with clients

- Establishing direct relationships with high-level stakeholders and decision-makers on the client side

- Participating in steering committees and project manager meetings

- Enforcing adherence to project methodology, change management guidelines, and standard tools and programs, and overseeing project status reporting

- Mentoring project managers on methodology and client engagement

- Promoting awareness of contractual, commercial, and strategic aspects among

employees

Supporting other departments such as finance and sales in project planning and billing

Setting a positive example, demonstrating entrepreneurial thinking, and inspiring with leadership style

Qualifications: To excel in this role, candidates should have:

Extensive experience as a program manager or large project manager in IT or ERP projects

Proficiency in managing multiple projects and teams concurrently

Familiarity with project management tools and methodologies such as PMI and Prince2

Strong understanding of business processes and IT

Experience in building and maintaining relationships with stakeholders and management

International project experience and familiarity with NS/OS teams preferred

Knowledge of Microsoft Dynamics 365 desirable

Excellent communication skills, persuasiveness, and assertiveness

Initiative, responsibility, social competence, and a collaborative management style

Willingness to travel extensively

Additional Information: In return, the company offers:

Diverse and challenging roles in a global company

Opportunities for career advancement in a modern working environment

Autonomy for independent work and creativity

An attractive workplace within a motivated team

A dynamic company with streamlined decision-making processes

UK applicants only

MUST have extensive ERP experience
