

United Kingdom Jobs Expertini®

Experienced MES Consultants / MBR Designers

[Apply Now](#)

Company: NNIT

Location: United Kingdom

Category: computer-and-mathematical

Would you like to be part of and make a mark in Pharma Production IT? NNIT delivers to the Industry 4.0 vision for Pharma. Our MES and Pharma Production team is growing rapidly.

Does your passion lie within MES & Pharma Production?

Are you energized working as either:

MES Consultant / Architect / Specialist,

MBR (recipe) Designer/Author,

Process Engineer / Project Manager / Automation Engineer within MES?

Do you have hands-on experience in (a MUST):

Pharma production processes and GMP

MES solutions (especially within PAS-X, FTPS, POMSnet...)

Production IT apps

Digital transformation and lean?

If any of the above sounds like you, you might be exactly the person we are looking for to join our Manufacturing & Supply Chain Solutions Team at NNIT!

Take the step with us and join NNIT's Production IT team!

We are passionate people building winning teams with our customers. Our teams make a mark for ambitious customers across Europe. With our business focus for pharmaceutical industry, we supply best-in-class pharma IT services across advisory, project

implementations, and operations across pharma capabilities (regulatory, clinical, production and labs, quality). We maintain strong methods for our services and train our teams systematically. We have strong experience with major pharmaceutical MES systems, and we work systematically with upcoming technologies.

Your qualifications and experience:

We are currently looking for **Advanced / Senior MES professionals** with experience in Life Science / Pharma MES.

The ideal candidate for MES consultant should have:

Relevant degree in IT, Engineering or Science

Good knowledge and skills within at least one of the following MES solutions: Werum PAS-X, Rockwell Factory Talk PharmaSuite, Emerson Syncade, Delta V, POMSNet, Siemens OpsCenter, MODA-ES

Sound understanding of life sciences production modalities

Excellent technical understanding of IT/OT manufacturing architecture, especially integration of MES with ERP (SAP) and level 2 automation systems

Knowledge of lean manufacturing / Six Sigma tools

Solid experience in MBR authoring MBRs with a standard MES solution for the (bio)-pharmaceutical or medical device industry

Good presentation skills

Fluent English is a must. Knowledge of German, French, Danish is always an advantage

To enjoy making a mark with us you need:

- **A strong consulting mindset**
- **Excellent communication and presentation skills** (being a good listener who communicates and connects effectively and professionally with individuals at all levels)
- **Team spirit** - we enjoy working together and helping each other
- **Mobility** (some business travel must be expected, depending on clients)

Please note that this is a full-time, permanent position.

Language:

Excellent **English** is a must (professional proficiency in German, Danish, or French is an

advantage)

What's next?

If you can recognize yourself in this role, we'll be looking forward to hearing from you.

Please remember to submit your CV in English. We interview and hire candidates continuously. Therefore, we encourage you to submit your application as soon as possible.

NNIT is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees. All candidates are encouraged to apply for the given job regardless of their gender, age, religious beliefs, sexual orientation, national and social origin, political opinion, disability, race, skin color, and ethnic origin.

In the interest of fostering a fair and unbiased recruitment process, we kindly request candidates to refrain from including their pictures in their applications.

Apply now and liberate your talent!
