Company: Interaction Recruitment

Location: Huntingdon

Category: architecture-and-engineering

Position: Tig Welder

Location: Huntingdon, Cambridgeshire

Monday-Friday

Immediate Start

Interaction Technical have teamed up with a well-established manufacturing company based in Huntingdon. Due to the growth within the company my client is looking to expand the team and take on an experienced welder in the workshop.

The Role:

Working with primarily Aluminium

Prepare and fix damage to various equipment

Fabricating and manufacturing components, mainly stainless steel

Reading and following engineering drawings

Working together as a team to complete customer orders

The Candidate

Must have experience Tig welding

Have sheet Metal Fabrication experience

Aluminium fabrication experience

Ability to work on their own initiative

Be able to read and work from engineering drawings

Interaction Recruitment have specialist consultants across the majority of industries within the UK, including but not limited to, Finance & IT, Technical & Engineering, Industrial, Commercial and Hospitality. We offer both temporary and permanent support. For more information regarding the position or to discuss any other opportunities, you can reach us on (phone number removed) or email (url removed)
