Taking part in the out-of-hours on-call rota to have 24/7 coverage for emergencies

## Contexte et environnement

Source London is one of the largest providers of on street charge points in London.

Maintaining a network of over 2200 charge points with a reliability rate of 98%.

Each site has a feeder pillar and between 1 and 5 charge points. The sites are mostly located curb side on public streets. Allowing EV users to park and charge in any bay with its dedicated charge point. The charge points require a yearly safety check and bi-annual RCD safety test. During the rest of the year we maintain a reactive and preventative maintenance programme to keep the charge points and feeder pillars healthy and safe to use.
