

Fire Alarm Small Works Engineer

[Apply Now](#)

Company: Protec Fire Detection PLC

Location: London

Category: architecture-and-engineering

Protec Fire Detection have a requirement for a Fire Alarm Small Works Engineer in the London & SE area. You will be required to work on the supply, fit and commission of Fire Alarm and associated equipment. You will be responsible for the installation of new systems as well as additions to existing systems installed by Protec Fire Detection and others. Candidates must have a high degree of reliability, self motivation and an ability to work independently and provide solutions on site. Candidates must be organised and able to submit the required paperwork in a timely manner.

Minimum forty hour working week with overtime. Travel time is paid as well as travel expenses. There will be a requirement for some driving, for which a valid driving licence is essential.

Good prospects for career progression are based on the individuals ability and the company policy is to promote from within.

Salary dependant on previous experience
