Formulation Chemist (Mid to Lead level)– Cosmetics – Staffordshire

Would you like to work as a Formulation Chemist for a global leader in cosmetics? This is a great opportunity to work for a market leader in cosmetics and personal care. As a Formulation Chemist, you will have further career progression opportunities as the business is recording year on year growth. You will be working with a dynamic company and trendsetter in the market who have created their own brand. As the formulation chemist you will be leading the product development and have plenty of autonomy in your role!

Day to day duties will include:

If snr leading the design of advanced cosmetic products

Formulating a variety of well-known cosmetic products

Managing multiple projects from initial concept to launch

Drive technical advancements.

Researching and evaluating raw materials and ingredients for technical and product enhancements

Laboratory management

Requirements:

Degree educated within a relevant science discipline.

Preferably 2 years minimum formulation experience

Current or recent cosmetics experience is essential (preferably skincare)

Ability to work in a fast-paced environment

Able to mentor and manager junior staff would be highly desirable

If you are interested in joining the market leader as a senior formulation chemist please send me a word version of your CV
