Company: Finatal

Location: United Kingdom

Category: business-and-financial-operations

FP&A Modelling Consultant:Day Rate: £500-700 Outside IR35Location: RemoteLength: 1-

2 monthsHT1123Company Overview: Our client is a dynamic SME marketing business

backed by a prominent Private Equity firm, poised for significant growth and a potential

secondary buyout in the next 2-3 years. With a focus on strategic acquisitions and

sustainable financial performance, they are seeking a highly skilled Senior Financial Analyst

to spearhead the development of a comprehensive financial model.Position Overview:

They are looking for a talented individual with extensive experience in financial modelling to join

our team. The Senior Financial Analyst will be responsible for building and maintaining a

sophisticated, granular financial model that integrates the tristatement and provides

nuanced insights at the customer grouping level. This role will play a pivotal part in

facilitating strategic decision-making and supporting our growth trajectory.Key

Responsibilities:Develop a detailed 3-year+ financial model incorporating income statement,

balance sheet, and cash flow statement.Implement advanced modeling techniques to capture

the complexities of customer grouping and acquisition scenarios.Collaborate closely with

cross-functional teams to gather relevant data and insights for accurate modeling.Perform

sensitivity analysis and scenario planning to assess the impact of various business strategies

and market dynamics.Identify areas for optimization and improvement within the financial

model to enhance forecasting accuracy and decision-making.Support management and

investors with ad-hoc financial analysis and reporting

requirements.Requirements:ACA/CIMA/ACCA qualification is essential.Proven experience in

building complex financial models, preferably within a Private Equity-backed

environment. Expertise in trisatement modeling and balance sheet reconciliation. Strong analytical skills with the ability to interpret financial data and draw actionable insights. Excellent communication and presentation skills, with the ability to convey complex financial concepts to non-finance stakeholders. Detail-oriented with a high degree of accuracy and precision in modeling. Benefits: Opportunity to work with a dynamic and ambitious team in a fast-paced environment. Competitive compensation package with potential for performance-based bonuses. Exposure to strategic decision-making and involvement in shaping the company's growth trajectory. Flexible work arrangements, including the option for retainer-based or project-based engagement.
