Full Stack Developer - Remote - .Net, C#, SQL, Azure - £55,000 - £60,000

Front end experience needed \* - JavaScript - React

I am currently representing a pioneering cloud-hosted SaaS provider poised to revolutionise managed services, who are seeking a skilled Software Developer professional to spearhead their development skills in the nascent stages of their development.

## **The Role:**

You will be joining the engineering team to contribute development to the software which enhances data and technologies by delivering extensive range of analytics and smart insights. Helping organisations to help achieve cost savings, increasing productivity by enabling data-driven decisions.

You will be involved in Software Architecting, code reviews and end to end software development. Supporting the team on an exciting project whilst the business goes through some rapid growth.

**Tech Stack:** C#, .NET, React (TypeScript), Azure Platforms(Docker), SQL Server, CI/CD

**Location:**

While the role is remote, candidates must be based in the UK with the right to work.

I am currently in the process of reviewing CVs this week. To be considered for this exciting opportunity or to glean further insights
