

## Full Stack Engineer

[Apply Now](#)

Company: Immersum

Location: United Kingdom

Category: other-general

Title: Full Stack Engineer Location: Remote (Must be UK based and open to travelling to

London a few times a year) Salary: £70,000 - £80,000 Tech: PHP, Symfony,

React Industry: Start Up SaaS Immersum are proud to be exclusively supporting an innovative

London-based SaaS/Tech Platform client at the forefront of digital transformation. Their

dynamic team is dedicated to revolutionising the industry, providing cutting-edge solutions to

their clients. They're currently seeking a talented Full Stack Developer to join them on a

fully remote basis within the UK. As a Full Stack Developer, you will play a pivotal role in

the development and enhancement of their platform, utilising your expertise in PHP, Symfony, and

React to drive innovation and deliver high-quality solutions. You will collaborate closely

with our cross-functional teams to create seamless user experiences, optimise performance,

and implement new features. Role:- Develop and maintain robust, scalable, and efficient

web applications using PHP and Symfony framework.- Design and implement user-friendly

interfaces with React, ensuring responsiveness across devices.- Collaborate with product

managers, designers, and other stakeholders to translate business requirements into

technical solutions.- Conduct code reviews, identify areas for improvement, and implement

best practices to ensure code quality and maintainability.- Troubleshoot and debug issues,

providing timely resolutions to technical challenges.- Stay updated on emerging technologies

and industry trends, actively contributing to the continuous improvement of our

development processes. Skills:- Proven experience as a Full Stack Developer, with strong

proficiency in PHP, Symfony, and React.- Solid understanding of web development

fundamentals, including HTML, CSS, JavaScript, and RESTful APIs.- Experience working in

an Agile/Scrum environment, with a focus on delivering incremental value.- Excellent problem-solving skills and attention to detail, with a passion for writing clean, maintainable code within a startup environment.- Strong communication skills and ability to collaborate effectively with remote teams within a startup environment.- Bachelor's degree in Computer Science, Engineering, or related field (or equivalent practical experience).We are only looking for candidates based in the UK and do not require sponsorship. If you would like to find out more then click apply and share your CV.
