Company: Motorola Solutions

Location: United Kingdom

Category: computer-and-mathematical

Job Description

Manage the end-to-end development process of websites, ensuring high-quality code and timely delivery.

Manage and oversee the deployment and maintenance of web applications on AWS infrastructure.

Implement best practices for cloud architecture, scalability, and security.

Optimize existing database structures, ensuring efficient data storage, retrieval, and manipulation.

Work with relational databases such as MySQL and PostgreSQL along with graphQL.

Understand code deployment process and version control using GitHub

Create custom plugins/modules to enhance the functionality of our websites

Proficient in JavaScript (e.g., React, Angular, Vue) and PHP for effective implementation of features and functionality.

Enforce coding standards and best practices to ensure high-quality, maintainable code.

Collaborate closely with internal stakeholders, including digital Marketers, designers, project managers, and other developers to achieve project goals

Collaborate on a clear website deployment and QA process. Conduct thorough testing of websites to identify and resolve bugs, compatibility issues, and performance bottlenecks

Basic Requirements

Please note this role is predominantly home based, UK wide, with some visits to the Edinburgh office required, as per business needs.

5+ years experience as a Full Stack Developer, with a focus on both front-end and back-end development.

Experienced in deploying and managing applications on AWS.

Experience in developing and maintaining backend on of CMS such as WordPress, Contentful ,Craft and Hubspot

Strong proficiency in HTML5, CSS3, JavaScript and PHP.

2+ years experience with frameworks such as Vue and React

Experience with front-end frameworks (e.g., Bootstrap or Tailwind)

Proficiency with Alpine.js and HubL is a bonus

Strong knowledge of mobile first responsive web design principles

Familiarity with database design and management.

Excellent problem-solving skills and attention to detail

Strong communication and teamwork skills

2+ years of experience working in a project management system like Jira

In return for your expertise, we'll support you in this new challenge with coaching & development every step of the way. Also, to reward your hard work you'll get:

Competitive salary and bonus schemes.

Two weeks additional pay per year (holiday bonus).

25 days holiday entitlement + bank holidays. • Attractive defined contribution pension scheme.
