

Games Artist

[Apply Now](#)

Company: Product - Gaming Product GBR

Location: United Kingdom

Category: other-general

As a Games Artist within one of our best-in-class Game Studios, you're set to embark on an exciting journey in the world of casino gaming. Crafting captivating artwork and animations, your role is pivotal in bringing game concepts to life. Guided by the Head of Art, you'll be asked to develop exciting graphical themes, ensuring our products stand out as innovative and thrilling experiences for players across various gaming types and styles. Collaboration is key. Working closely with the Head of Art & Games Producer, you'll engage in the iterative design process, refining until each project meets the highest standards. Beyond design, your role extends to producing essential art artifacts for production teams, seamlessly integrating within the broader product team to deliver a compelling content portfolio in the dynamic landscape of casino gaming. This isn't just a job; it's an opportunity to make a lasting impact within one of the largest content distributors in the industry, shaping the vibrant world of casino gaming.

It's a safe bet that the next chapter of the Entain story is going to be epic on a truly global scale. Want to know more? [Click for a short video.](#)

What you will do

- Create high-quality designs and artwork for the product pipeline, contributing both individually and collaboratively across various projects

- Interpret and execute the design requirements provided by the Head of Art & Games Producer, assuming responsibility for the art elements you produce

- Employ a diverse range of design tools to attain the desired project standard, emphasising

quality, visual coherence, and an optimal user experience.

Generate and design art & graphics assets for games, features, UI, and game mechanics to align with the design brief's requirements.

Work closely with development teams throughout production, addressing graphical issues raised during development and testing phases.

Demonstrate flexibility in the art design process, adapting to evolving workflows and maintaining a commitment to transparency.

Produce and deliver relevant game art assets for the marketing teams as per project requirements.

Who you are

3+ years of experience working in the gaming industry

Experience in computer-generated art, including proficiency in several of the following areas: fundamentals of composition, form, colour, light and shading, and graphics content optimisation.

Strong illustration skills (demonstrated in portfolio)

Intermediate level in Adobe creative packages (emphasis on Photoshop and Illustrator)

Knowledge of Esoteric Spine for gaming animation

Intermediate level or better in Adobe After Effects

Experience in digital art, including proficiency in several of the following areas: concepting and production artwork for environments, characters, typography and UI, lighting and shading, high-quality asset rendering and optimisation

Experience of working with Games Development Teams or similar creative project deliveries

Strong digital portfolio of work that demonstrates a keen eye for artistic direction,

imagination and storytelling

What we offer

At Entain, we know that signing top players requires a great starting package, and plenty of support to inspire peak performance. Join us, and a competitive salary is just the beginning.

Working for us in the UK you can expect to receive great benefits like:

Private Health care

Private Dental care
