### Description

**FieldCore** is looking for an exceptional **Generator Winder** to join our On Site Services team based in UK. FieldCore, a GE company, is an independent, industrial field services organization focused on World-Class Execution across the power generation sector. Our team includes more than 10,000 of the foremost experts in field services all focused on one thing: delivering excellent outcomes for our customers. Our Core Values of Safety, Integrity, Quality and Inclusion are the foundation of everything we do to empower the people who power the world. **Let's Talk about the Role** As a Generator Winder you will repair, overhaul and refurbish generators and equipment on site and within workshops. Your responsibilities include dismantling, rewinding, brazing, insulating, bracing, re-wedging, working with epoxies, retaining ring removal & refitting. **How You Will Make a Difference** Inspects generator equipment for damage and evidence of malfunctions.

Refurbishes, tests and rewinds generators and equipment.

Dismantles and/or strips damaged or unserviceable mechanical equipment.

Operates mobile equipment, tools & machinery efficiently and accurately.

Maintains clean work areas, machines and equipment.

Ensures correct documentation is used and filled out as specified on inspection and test plans, work instructions and any quality documents.

Ensures that all specified records are correctly taken, reviewed and approved.

Ensures that work is carried out in a safe manner and that relevant Safety and Quality documentation is complete for the task in hand.

Ensures all lifting equipment is correctly used, and prior to use confirms its current inspection status.

Ensures all work under their control is properly protected against damage whilst in the workshop or on site and correctly packages equipment for transport to ensure protection against damage.

Complete all online and classroom training sessions.

### **Special Role Requirements:**

Able to travel extensively to and from projects and various field assignments.

Willing to work holidays, weekends and overtime as required by field assignments.

Ability to spend considerable time away from home for training and field assignments

**Skills for Success** You should be a trade certified fitter or winder with experience working as a generator technician or with power generation equipment. **We're determined to be the**

**best place to grow** People are the heart of our organization and we put them first in everything we do. From professional development to a wide range of training opportunities, we continually strive to create an empowering and healthy place to work.

Combining our values of growth and World-Class Execution is what sets our workplace apart from the rest. Only FieldCore can offer this wide range of opportunities across the power generation industry, combined with excellent career paths in technical, functional and leadership areas

**What's in it For You** Our total rewards are designed to unlock your ambition by giving you the boost and flexibility you need to turn your ideas into world-changing realities. That's why we offer comprehensive benefits that encourage mental, physical and financial well-being for all FieldCore associates. Not only this but you'll also be surrounded by career opportunities in a culture that fosters care, collaboration, and support.

**Inclusion & Diversity** We are passionate about creating an inclusive work environment. By valuing the ideas and contributions of a diverse workforce we help inspire others to grow, succeed, and raise the bar for everyone. As an equal opportunity and affirmative action

employer, FieldCore is committed to support disadvantaged groups whilst providing equal opportunities for both FieldCore associates and applicants alike. Join us at FieldCore where results can be achieved by embracing a community of belonging.
