Geo-environmental Engineer - Market Leading Consultancy

Join our client, a dynamic consultancy comprising 85 professionals across five UK offices. Specialising in Commercial and Residential projects, They boast a prestigious clientele including Jaguar Land Rover, Mercedes Benz, and Wembley football stadium.

Based in their Midlands office, you'll become part of the expanding Geo-Environmental team, where you'll have the chance to make significant strides in your career. Their modern, open-plan offices are conveniently located just a short walk from various public transportation options, including buses, trains, cycling, and e-bike routes.

In this role, you'll tackle a diverse array of stimulating projects, from due diligence and ground investigation to construction and completion, spanning various sectors. With guidance from experienced colleagues, you'll contribute to the creation of ground investigation reports, remediation strategies, earthworks specifications, and validation reports.

Their robust appraisal system and training initiatives are designed to support your career advancement, equipping you with the skills needed for the role. They encourage and assist you in obtaining professional qualifications, providing mentorship and support as you work towards chartered status.

Key Requirements:

Ideally, hold a 2:1 or higher degree in geology or earth sciences, or be in your final year of study.

1 to 2 years of experience in ground investigation, environmental monitoring, or relevant field is advantageous.

Strong communication skills.

Eagerness to learn and advance your career.

Interest in contaminated land or ground engineering.

Ability to solve problems collaboratively with team members.

Strong record-keeping, analytical, and writing skills are beneficial.

Benefits:

Flexible holiday allowance.

Company pension scheme.

Balanced workweeks split between site and office-based tasks.

Engagement in regionally significant projects.

Varied and stimulating assignments.

Support for professional qualification progression.

Exceptional opportunities for career advancement. To apply for this role, please hit the APPLY button below. If you are looking for something else, please contact us as we work across the Geosciences and Geotechnical industry UK wide covering: Geo-Environmental Engineer, Geotechnical Engineer, Geo-Environmental Consultant, Remediation Engineer, Hydrogeologist, Contaminated Land Consultant and much more
