Company: May Walters

Location: Not Specified

Category: other-general

Geotechnical Office Lead Location - Leeds Salary - Depending on Experience About Us May Walters is a boutique search consultancy specialising in senior positions within the engineering and environmental sector. The OpportunityOut client is a well established mid tiered engineering lead consultancy with offices throughout the UK. They are privately owned with a national and international network of offices and clients. In the UK they have a track record in delivering projects in infrastructure, transport and development and have had recent success in recent framework bids, which has led to a need to increase their delivery capability. The geotechnical division is established in the UK, however there is a need to develop the service line in the north of the UK to compliment the teams in Scotland and Midlands/South to service clients. Expressions of interest are sought from individuals who are interested in developing and leading the office in this discipline. Applications are encouraged by seasoned consultants or individuals who have the right approach and are enthusiastic to make their mark in the industry. A knowledge of geotechnical engineering / engineering geology or geo-environmental backgrounds with a design bias would be desirable and in return a competitive package would be offered for the right individual alongside a friendly and informal working environment Feel free to contact Martin Higgins in confidence for further information; or
