

Graduate Civil Engineers - Water (Leeds)

[Apply Now](#)

Company: Jacobs

Location: United Kingdom

Category: architecture-and-engineering

Graduate Civil Engineers - Water (Leeds)-(BIE00035N)

Your Impact:

Are you ready to start your career in an inclusive, flexible, and dynamic work environment?

What are you waiting for? Apply today!

Your impact

Join the Jacobs Graduate Development Programme (GDP) and have a meaningful, positive impact on our environments, communities, and societies worldwide. As a Jacobs Graduate you will be part of a larger network of talent who are Challenging Today and Reinventing Tomorrow.

What we do at Jacobs

Our People & Places Solutions business focuses on providing solutions to future challenges such as climate change, the need for renewable energy, low carbon economies, transportation, and material resource and waste management. While we shape some of the very largest and most challenging landmark projects in the UK, we also deliver local projects that protect communities.

What will you get?

Our Graduate Development Programme is a structured two-year scheme where we provide the framework, mentoring and experiences to help you maximise your skills and ambitions.

On joining our scheme in September 2024, you'll rapidly gain knowledge of how our company works and the impact that you can have to help us move towards a more

connected and sustainable world.

About the opportunities

Jacobs are seeking Civil Engineers in Leeds who are looking to begin their careers in a world-class leading company with excellent career prospects. Working as part of a multi-disciplinary team, you will be providing innovative and sustainable solutions for clients such as Water Companies, the Environment Agency & SEPA as well as less obvious clients like Airports.

Your workload will be varied, you could be: -

Designing a Sustainable Drainage System for a new development

Assessing and designing options for managing flood risk and adapting to climate change

Assessing the safety of infrastructure on rivers

Contributing to the determination of budgets for the next five years of investment in the Water Industry

Our Graduates are exposed to a wide range of projects and we will support you to grow and develop into the areas that you find interesting. Whatever you decide to do, our friendly teams will be on hand to help you along the way.

Training programmes accredited by UK professional bodies to support you in ultimately achieving Chartered status.

Here's What You'll Need:

Be working towards a relevant Degree or Masters level qualification in Civil Engineering

An interest in water similar

A flexible self-starter who is keen to drive your career forward

Adaptable to change, with a thirst for learning new things

You must have the permanent right to work in the UK

What else we provide

A flexible workstyle, embracing a hybrid working pattern and supporting those who need to balance work/life commitments a bit differently than others

Free single medical cover and digital GP service

Reimbursement towards relevant professional development and memberships

An inclusive and diverse work environment, embracing the variety of disciplines, cultures, backgrounds and lifestyles of our employees through our

A focus on safety, health, and wellbeing, prioritising our people through a culture of caring and positive mental health champion network

Opportunities to give back to our communities through our Collectively program, incorporating matched-funding, paid volunteering time and charitable donations.

We want you to bring your whole, authentic self to Jacobs.

Jacobs partners with VERCIDA to help us attract and retain diverse talent. For greater online accessibility please visit to view and access our roles. As a Disability Confident employer, we will interview all disabled applicants who meet the minimum criteria for a vacancy. We welcome applications from candidates who are seeking flexible working and from those who may not meet all the listed requirements for a role.

If you require further support or reasonable adjustments with regards to the recruitment process (for example, you require the application form in a different format), please .

Your application experience is important to us and we're keen to adapt to make every interaction even better. We welcome feedback on our recruitment process and if you need more from us before deciding to join Jacobs then
