Graduate Engineer – French Speaking

Full-Time Permanent

£33,000 - £35,000 per annum plus bonus

International Travel

Embark on a dynamic career journey with a prestigious role that calls for a French speaking Engineering Graduate or experienced Graduate Engineer to become an integral part of a Distributor Support Team for a renowned global chemical manufacturer.

Imagine a position that not only utilises your technical acumen but also enhances your business development skills, as you become the pivotal force connecting a European & African Distribution network. Stationed in Yorkshire, with frequent travel to French speaking countries, your primary focus will be on cultivating growth and providing unparalleled technical support to an extensive network of Distributors.

The Graduate Engineer – French Speaking role includes:

- Delivering frontline technical assistance to Distributors

- Spearheading field activities to capitalise on business development prospects
- Offering application support, including basic field training and site support
- Identifying training requirements and executing strategies for comprehensive product range promotion
- Contributing to in-house training through engaging presentations
- Onboarding new distributors as part of strategic expansion

The Graduate Engineer – French Speaking candidate will possess:

- A recognised engineering qualification (mechanical, chemistry, material engineering, etc)
- Fluency in French (essential)
- A collaborative spirit and strong team ethos
- Outstanding presentation abilities
- A knack for building effective relationships, with a customer-centric approach
- A commanding professional presence
- Superb verbal and written communication skills
- Analytical prowess
- A readiness for travel within designated territories

The role offers a highly competitive remuneration package of £33,000 - £35,000, complemented by a performance-based incentive bonus and a suite of benefits including private healthcare, life assurance, permanent health insurance, and flexible working arrangements after a 6-month probationary period.

If you are interested to know more about this role please submit your CV for immediate consideration.

This role will suit recent or experienced graduates who enjoy relationship building.
