

Graduate Engineering Geologist[952784]

[Apply Now](#)

Company: Leap Environmental Ltd

Location: United Kingdom

Category: life-physical-and-social-science

We operate an open and relaxed management culture that nurtures continuous improvement and innovation. This also enables us to achieve a staff turnover rate that's consistently below the industry average. Adopting a proactive growth strategy helps us to run a sustainable and profitable business while providing new and exciting career opportunities for all.

Responsibilities:

Collect, analyse and interpret geological, geochemical and geotechnical data.

Prepare Phase 1 desk studies based on web-based research, review of technical reports and other sources of geological and geotechnical information.

Visit sites – including greenfield/brownfield sites that may or may not be due for development/redevelopment and also active construction sites to compile site visit notes for inclusion in Phase 1 reports.

Plan, organise and undertake field work/site investigations, with the assistance of a Project or Senior Engineer/Geologist.

Qualifications and Experience:

BSc degree level qualified in Geology, Civil Engineering or a related subject essential

Salary and Benefits:

Contributory Pension Scheme

Free life assurance cover

A flexible benefits programme including a number of wellbeing initiatives and the option to buy additional holidays

We encourage Continuing Professional Development. Regular training and career development are promoted and encouraged. Your professional institution fees and all training will be covered.

RSK Group is an equal opportunities employer.
