

Graduate/Intermediate Engineer - Rail

[Apply Now](#)

Company: Hunter Mason Consulting Ltd

Location: Leeds

Category: construction-and-extraction

Job Title: Graduate/Intermediate Engineer

Location: Leeds, United Kingdom

Salary: £25,000 - £40,000 per annum (Depending on Experience)

Company Overview: Join a highly successful, reputable, and growing organization where your commitment and achievements will be appreciated and rewarded. My client is a forward-thinking Civil, Structural, and Geotechnical Engineering Consultancy operating across multiple branches in the UK. With a rich history dating back to 1981, they specialize in projects encompassing buildings, railway infrastructure, temporary works, bridges, and geotechnics. Their steady growth is fueled by a dedicated and highly skilled workforce of 100 employees.

The Role: They are seeking a motivated and talented Graduate/Intermediate Engineer to join their dynamic team in Leeds. This role offers an excellent opportunity to work on a variety of projects and gain valuable experience in civil, structural, and geotechnical engineering. While prior experience in rail works, bridges, stations, temporary works, or related fields is beneficial, we welcome candidates with a strong foundation in engineering principles and a willingness to learn.

Key Responsibilities:

- * Assist in the design, analysis, and development of civil, structural, and geotechnical engineering projects.
- * Work collaboratively with project teams to deliver high-quality solutions that meet client requirements and industry standards.
- * Conduct site visits, inspections, and surveys as needed to support project activities.
- * Prepare technical reports, calculations, and drawings under the guidance of senior engineers.
- * Assist in the preparation of tender documents and project proposals.
- * Engage in continuous learning and professional development to enhance technical skills and knowledge.

Qualifications and Experience:

- * Bachelor's degree in Civil Engineering, Structural Engineering, or a related field.
- * Previous internship or work experience in engineering is desirable but not essential.
- * Strong technical proficiency in assessment and design, including inspections, calculations, and analysis of existing and new-build structures
- * Excellent communication and teamwork abilities.
- * Enthusiasm for learning and a proactive attitude towards professional development.

Salary and Benefits: The salary for this position is £25,000 - £40,000 per annum, depending on experience. In addition to competitive compensation, we offer a range of

benefits, including:

- * Opportunities for career advancement and professional growth.
- * Training and development programs to support your career goals.
- * Company-sponsored social events and activities.
- * Flexible working arrangements.
- * Pension scheme and other employee benefits.

How to Apply: If you are a motivated and ambitious graduate or intermediate engineer looking to kick-start your career in a dynamic and supportive environment, we want to hear from you! Please submit your CV and a cover letter outlining your relevant experience, skills, and why you are interested in joining our team.
