2024 Graduate Python Software Engineer - Health Tech Start Up
Join an Elite ML / Python Software Engineering Team
A rapidly growing health tech start up is on a mission to redefine the health and fitness tech industry, and we're looking for an exceptional Graduate Python Software Engineer to join the journey. If you're a Graduate Python Software Engineer with a passion for innovation and a desire to shape the future of mobile and wearable applications, this opportunity is for you.

Graduate Python Software Engineer Role: As a Graduate Python Software Engineer you will be a key player in crafting, testing, and delivering cutting-edge features and use a data-led approach to influence algorithms. You'll work closely with the founders and CTO to drive the evolution of our products and make a real impact in the health tech industry.

Key Graduate Python Software Engineer Skills We're Looking For: On track for a First in a relevant Degree from a Top Russell Group University
Proficiency in Python, with a strong understanding of Data Science and Machine Learning
Analytical background and data driven approach
Strong internship experience or very active GitHub

Nice-to-Have Graduate Python Software Engineer Skills: Experience with deployment, release cycles, or CI/CD. Experience with serverless architectures, AWS, and open-source contributions. Experience delivering features end-to-end, from architecture design to releasing and supporting. Strong interest in health/fitness technologies.

Benefits: Stock options. Flexible working arrangements. Regular salary reviews. Flexible holiday. Workplace pension scheme. Provision of a new Macbook, a running watch of your choice, and other necessary equipment. Bi-weekly team runs and lunches.
