Company: Pertemps TM

Location: Exeter

Category: architecture-and-engineering

Exciting graduate role in Exeter!

We are looking for Graduate Structural Engineers with particular ambitions around building structures. The company is a highly respected local practice which holds a substantial share of the market. The team is a mixture of structural and civil engineers and technicians, currently holding 6 Chartered Structural Engineers and punching well above its weight. Projects typically range from small domestic jobs to multi-million pound mixed use schemes with a high local profile.

No prior working experience is required and candidates must hold a relevant degree in civil or structural engineering.

Other projects include:

Biomass plants

4 storey mixed use development – Plymouth

Underground car park and foundations

7 storey luxury flats with complex foundation challenges

We require a graduate structural engineer with a keen interest in building design to work across all of this business' core projects including a 25m waste to energy scheme in the South West.

You will be required to report directly to the company's director, we need someone of excellent attention to detail and good time management skills.

This business has heavily invested in the right staff, software and working environment, an excellent indicator of a progressive local practice.

Responsibilities include;

Detailed design and analysis duties on building structures from a range of sectors including unique historical projects with contemporary elements

Undertaking site visits, supporting site managers on technical issues

Obtaining a good understanding of issues on site and devising and providing solutions with particular emphasis on sensitive engineer methods for historical structures

Communicating with contractors, architects and clients – building lasting relationships

Working towards chartered status with full support from the business

Salary ranges between £25,000 and £32,000 depending on experience with a healthy annual bonus. The business has a contemporary office space in an easily accessible location close to central Exeter, the encourage a healthy work-life balance and flexible working is offered.
