

Ground Engineering Estimator (english AND french speaking) M/F - 2024-33761

[Apply Now](#)

Company: Bouygues Construction

Location: United Kingdom

Category: business-and-financial-operations

Your future duties & challenges

VSL Systems (UK) is growing and seeking an experienced Engineer for our Ground Engineering team. Adaptability to different geographical locations is essential with projects scattered across the UK and EU. We provide travel and accommodation support.

VSL specialises in post-tensioned and cable-stayed structures, foundations, and ground engineering. We're committed to designing, constructing, maintaining, and upgrading major structures, ensuring unmatched safety, performance, and durability.

The Ground Engineering Business Line Team is thrilled to offer an opportunity to join VSL Systems UK as an Estimator based in London. This role encompasses a range of responsibilities crucial to successful tendering and project estimation.

Main Responsibilities:

Efficiently record and log all tender correspondence.

Ensure timely completion of all proposals and estimates.

Thoroughly review tender documentation and provide feasibility advice.

Prepare and submit tender queries and clarifications.

Develop bills of quantities and schedules of rates for tender applications.

Create detailed proposals that adhere to client guidelines and specifications.

Ensure compliance with relevant legislation and industry standards concerning health,

safety, quality, and the environment.

Lead and coordinate projects in collaboration with the Bid Manager, Preconstruction Manager, and Commercial Manager.

Coordinate tender preparation documents from various departments to meet client requirements.

Analyse technical, legal, and financial aspects to propose effective commercial strategies.

Participate in bid negotiations under the guidance of management.

Manage subcontract enquiries and review submissions for compliance.

Identify and pursue future business opportunities and potential partnerships.

Explore new markets and cultivate client relationships.
