### Job Description

Group Health And Safety Officer

Our client are a UK wide clothing and textile retailer with 1, stores, Distribution centres in Cardiff, Leeds, Seaham and Carlisle and administration centres in Warrington, Cardiff, London and Carlisle. The Group has 11, employees. The successful candidate will report to the Group Company Secretary and work under the direction of the Group Health & Safety Manager and will be expected to be mobile and largely field based in order to service the whole business as required.

The base office will be Cardiff or Warrington, however, other locations will be considered for the right candidate.

The Health & Safety Officer will provide support, advice and training to colleagues in all areas and at all levels of the business and is expected to carry out in the region of 70 site audits per year, these will mainly be in retail stores but will also include Distribution Centres and office space.

This post is the first line contact with EHO's, Fire Officers and other government agencies in the Health & Safety field. There is also a requirement to carry out post incident/accident investigation and to assist with the review and creation of safe systems of work and risk assessment.

Previous experience in retail or distribution is preferable, however, other candidates will be considered.

A minimum of 2 years post qualification experience is preferred or a person with retail or

warehousing experience and the required Health and Safety qualifications.

Technical requirements: A sound knowledge and understanding of current health & safety legal requirements and the candidate should be a member of IOSH and hold the NEBOSH diploma or equivalent.

Competencies: The ability to communicate and negotiate with all levels of staff and management. A self motivated individual with good report writing skills and a practical and commercial approach to applying Health and Safety legislation.

You need to be comfortable and competent with training others in health and safety topics.

You need to be able to deliver health and safety solutions in a commercial environment.
