

Head of Infrastructure

[Apply Now](#)

Company: Harrington Starr

Location: London Area

Category: business-and-financial-operations

Head of Infrastructure | Large-Scale Brokerage Firm in London Harrington Starr are looking for a collaborative Head of Infrastructure to join our Large-Scale Brokerage Firm client in London. As the Head of Infrastructure, you will play a significant role in defining the architecture, strategy and processes used to deliver effective change and manage efficient operations. Managing multiple global teams across cloud and on-premise environments, infrastructure provides the foundation for the business to operate. With the responsibility for automation evolution, inventory management processes, security, resilience, cost management (inc licensing) and the oversight of problems and risks, this role is pivotal in ensuring the required controls and delivery pipelines are in place and the organisation can grow and meet ongoing business demands. Key Skills: Experience of running a global infrastructure estate for a Financial Services organisation, ideally Front Office. AWS Solutions Architect / Microsoft Azure Architect Expert. CCNA (Cisco Certified Network Associate). VMWare / VSphere. CISMP (Certificate in Information Security Management Principles). Experience running global follow-the-sun teams. Team Management (cross region). Desirable: Experience working in a regulated environment and knowledge of the risk and associated compliance requirements. ITIL v4 Foundation. Project Management / Agile experience. Microsoft Intune experience. Palo Alto experience. Please apply today or get in touch with me directly: sean.kennedy@harringtonstarr.com
