Head of Platforms (API Platform Build) – High Level - (Excellent Package) – Edinburgh – FinTech – New!

Excellent package including great bonus & benefits

A leading organization requires a Head of API Platforms to join its fantastic growing team.

An excellent opportunity to be the driving force in APIs within a global enterprise.

The ideal candidate will have:

- * Proven experience in API platform building, including the design, development, design, architecture, delivery, and maintenance of an API platform.
- * Ensure that the API initiatives meet the needs and expectations of all parties involved.
- * Oversee the setup and maintenance of scalable, highly available, and disaster recovery-enabled platforms
- * Experience in aligning API strategies with broader business goals and digital transformation initiatives. Developing broad API capabilities across the organisation.

* Advanced knowledge of cloud technologies, digital transformation strategies, and software development life cycles (SDLC).

* Exceptional ability in leading diverse software engineering teams, fostering an environment of collaboration, innovation, and continuous learning.

* Previous experience of leadership to development teams and being able to evaluate complex delivery risks and issues accurately and objectively.

* Demonstrate a flexible approach to work

* Making sound and good decisions, understanding the right level of risk and influencing others

Please send CV for full job description and an informal chat. Excellent opportunity to join a market leader growing rapidly in a unique space
