About Aira

We are a next-generation home energy champion. We passionately believe that creating smart, sustainable homes is our way to make a positive impact in the world.

Aira's mission is to advance the next generation of home energy solutions, creating intelligent, sustainable homes for a meaningful impact. Starting with innovative heat pumps, it will evolve into a comprehensive, intelligent clean energy-tech system and include dynamic electrical tariffs, cutting-edge home solar systems, and advanced battery storage solutions.

About the role as Heating System Design Engineer at Aira

As a crucial part of our brand new team in Scotland, you'll be responsible for designing domestic heat pump systems which are efficient, reliable, and compliant with MCS and manufacturers guidance.

What you'll be doing as Heating System Design Engineer at Aira

Pipe sizing, heat loss, radiator sizing, and noise assessment.

You'll need to make sure our installations are compliant with planning regulations, and MCS.

Deliver schematic diagrams which effectively communicate installation requirements to installers.

Support and work closely with installers.

What you'll need to have as Heating System Design Engineer at Aira

You'll need to have the necessary qualifications, training, and experience to design high quality air source heat pump installations for domestic properties.

Level 2 / 3 Award in plumbing.

The following would be useful to have;

Qualifications in System design such as Heat Geek Heating Mastery

Level 3 Award in installation and maintenance of air source heat pump systems

Level 3 Award Low temperature heating and hot water systems in dwellings

What is in it for you?

Salary of £50,000

25 days annual leave + bank holidays

Health Cash Plan

Reward Gateway (shopping discount)

Life insurance

25 days Annual Leave plus Bank Holidays

Laptop, Phone and all equipment provided

What do our team say about life at Aira?

Aira leads in the next generation the Energy as a Service, driven by our belief in the power of diversity to fuel innovation. We welcome individuals from all backgrounds, cultures, and perspectives to join our team, united in our mission to create a better future for the society and planet.
