

HSE & Facilities Manager - Manufacturing

[Apply Now](#)

Company: Versorecruitment

Location: United Kingdom

Category: other-general

Job Title:HSE & Facilities Manager - Manufacturing

Location:Newcastle upon Tyne

Salary:£50 - 55K per annum

In the role of Health, Safety, Environmental (HS&E), and Facilities Manager, your contributions are essential for upholding the safety and compliance standards. Based near Newcastle, your dedication to establishing and implementing robust management systems, conducting thorough inspections and audits, and delivering comprehensive training will foster a culture of safety and efficiency.

Your leadership and guidance will empower the team to uphold high standards and meet regulatory requirements. With your expertise and dedication, we will continue to prioritise the health, safety, and environmental sustainability of our operations.

HSE & Facilities Manager - Manufacturing - Responsibilities and Accountabilities

Develop and implement comprehensive health, safety, and environmental management systems.

Conduct regular inspections, audits, and risk assessments – including COSHH.

Ensure compliance with HSE legislation and industry best practices.

Provide training on safety procedures and emergency response protocols.

Investigate accidents and develop preventive measures.

Maintain records related to compliance and incidents.

Coordinate emergency preparedness plans.

Manage procurement and maintenance of safety equipment.

Oversee facility maintenance and operation, including building, utilities and infrastructure.

Develop and manage budgets for initiatives.

Coordinate with regulatory agencies and vendors.

Provide leadership and guidance to staff.

Assign repair schedules and evaluate costs.

Ensure department workers adhere to safety policies.

HSE & Facilities Manager - Manufacturing Desired Experience, Skills, Knowledge, and Qualifications

Bachelor's degree in occupational health and safety, environmental science, facilities management, or a related field.

Professional certifications such as NEBOSH, CIEH

Proven experience in a manufacturing/production setting

Facilities management experience and knowledge of OSHA, EPA.

Excellent analytical and communication skills.

Leadership experience preferred.

Proficiency in relevant software.

In the role of Health, Safety, Environmental (HS&E), and Facilities Manager, your contributions are essential for upholding the safety and compliance standards. Your dedication to establishing and implementing robust management systems, conducting thorough inspections and audits, and delivering comprehensive training will foster a culture of safety and efficiency. Your leadership and guidance will empower the team to uphold high standards and meet regulatory requirements. With your expertise and dedication, we will continue to prioritise the health, safety, and environmental sustainability of our operations.
