Company Profile:

A pioneering leader in the manufacturing of close-tolerance injection-moulded components and assemblies. For decades, we have been at the forefront of producing high-quality products that serve a diverse array of industry sectors. Our commitment to innovation and cutting-edge technology has enabled us to supply clients across the UK and worldwide. Equipped with a state-of-the-art in-house toolroom, an extensive range of additional services, and a stringent quality management system, we offer comprehensive solutions to meet the unique needs of our customers. At the heart of our operations is a dedication to delivering precision and excellence in injection moulding technology.

Join our team and become part of an organization that values quality, innovation, and a global perspective. Contribute to the production of close tolerance injection-moulded components and assemblies that make a significant impact in various industries.

Job Overview:

We are seeking an Injection Mould Toolmaker / Fitter to join a dynamic team.

As an essential member of the production department, you will be responsible for the manufacture, maintenance, repair, and assembly of injection moulding tools and equipment to ensure the efficient production of close-tolerance injection-moulded components and

assemblies for various industries.

Key Responsibilities:

- * Manufacture, maintain and repair injection moulding tools and equipment to produce close-tolerance injection mould tools, components, and assemblies.
- * Perform scheduled maintenance to ensure machines operate optimally.
- * Assemble, fit, and adjust tooling components as needed.
- * Inspect and troubleshoot tools for any issues related to the production of close-tolerance injection mould tools, components, and assemblies.
- * Collaborate with the production team to ensure tooling.
- * Contribute to the production of close tolerance injection moulded components.

Qualifications and Requirements:

- * Previous experience as an Injection Mould Toolmaker or Fitter.
- * Proficiency in injection mould tool manufacture, maintenance, repair, and assembly.
- * Ability to interpret tooling specifications and adjust components accordingly.
- * Strong attention to detail and quality.
- * Self-motivated, reliable, and a team player.
- * Willingness to work overtime when required
