

Injection Moulding Setter

[Apply Now](#)

Company: Sierra 57 Consult Ltd

Location: Baguley

Category: architecture-and-engineering

Job Overview: Working alongside our client, an established injection moulding manufacturer, we are looking for a skilled injection moulding setter to join their team.

Remit:

- * This position will suit an experienced Injection Moulding Setter and provides a stable and secure position with a company who place their people at the forefront of their successful business.
- * The ideal injection moulding setter candidate will have a good knowledge of thermoplastic materials with experience in troubleshooting new and existing tooling.
- * As injection moulding setter you will be able to set, condition, maintain and optimize several injection moulding machines and oversee robot program changes.

Role:

- * Monitoring production processes ensuring optimum running conditions.
- * Tooling change overs
- * Resolving machine related production/quality issues in an efficient and timely manner
- * Providing efficient end of shift handovers
- * Barrel and screw cleaning
- * Assist with the start-up and shutdown of the extrusion lines
- * Monitor and maintain quality in accordance with specification
- * Use fork truck and manual means to move raw material and finished products.
- * Perform tool trials
- * Assist other moulding setters and operators.

- * Make every effort to keep moulded product scrap to a minimum.
- * Maintain a clean and tidy workplace and good housekeeping within the department (5's)
- * Throughout each shift measure and record quality checks and monitor product quality
- * Follow and understand operating procedures and setting sheets for moulded products.
- * Inform the Production Manager immediately of any breaches of the works rules.

Experience:

- * Previous experience as an Injection Moulding Technician/Setter
- * Good experience with injection moulding machinery and robots
- * Good knowledge of plastics and the uses/properties
- * Technical and analytical with the ability to problem solve
- * Experience in process optimization & troubleshooting
- * Good communications skills
- * Leadership skills and a strong team player
