

Injection Moulding Technician

[Apply Now](#)

Company: Sierra 57 Consult Ltd

Location: Buckingham

Category: architecture-and-engineering

Job Overview: Working alongside our client, a leading injection moulding manufacturer of specialist products, we are looking for an experienced injection moulding technician to join their team to support continued business growth.

Remit:

- * This position will suit an experienced injection moulding setter or technician with a minimum of 5 years' experience and recognised industry moulding qualifications.
- * A fantastic opportunity for a skilled mould technician to join a forward-thinking company during an exciting period of sustained business growth.
- * As injection moulding technician you will provide hands-on moulding technical support to production, to include tool change and machine setting.

Role:

- * In the role of Injection Moulding Technician you will be responsible for organising the shift production team to achieve output requirements.
- * The successful Injection Moulding Technician candidate will be required to train operators using standard operation instructions and operating procedures.
- * Maintain quality and safety standards and operate procedures and instigate containment and corrective actions in the event of non-conformance.
- * Continuously strive to eliminate and reduce waste of any kind within the manufacturing process: scrap, rework, consumables, etc.
- * Achieve daily production plans and report performance daily to the Production Manager.
- * Control and collate product quality and process control data.

- * Provide effective hand-over information communication between shift.
- * Encourage personal development and skill acquisition of team members.
- * Provide direct machine operator cover as necessary to maintain process continuity.
- * Maintain and strive to improve housekeeping standards.
- * Carry out and champion productive maintenance tasks as appropriate to skill level.
- * Provide technical assistance in the development of new products through design reviews, tooling reviews and tool or process trials if required.

Experience Requirements:

- * Minimum of 5 years' experience within an injection moulding manufacturing environment
- * Recognised injection moulding industry qualifications
- * Basic Computer literacy
- * Demonstrable aptitude for moulding machine trouble shooting
- * Good presentation / communication skills
- * Supervisory experience of production operators
