Category: other-general

We are assisting a market leading international law firm with their search for a junior associate. A background in insurance regulatory work is preferred. However, they would also be interested in candidates with other FS regulatory, commercial insurance, and/or London market/Lloyd's experience. The role is likely to be London-based but could also be filled by a candidate located in one of their UK regional offices, who is happy to travel to London on a regular basis.
