IT Field Engineer - The Role

This is a fantastic career opportunity for a Field Based IT Engineer with technical experience of installing and upgrading Server, Desktop and Network infrastructure as part of a project team. The successful candidate must be technically astute across all areas of desktop and infrastructure, whilst having strong communication and customer service skills.

The candidate would ideally be based in the North Hampshire region for best access to customers locations. There may be occasional travel to London, Surrey & Dorset.

Mileage will be paid at approved Mileage rates set by (url removed)

Skills Required:

* Imaging and deployment of technologies for Windows 10/11

* Installing and configuring Microsoft 365 Applications

* Network installations, and comms cabinet patching

* Windows Server 2008 – 2019

* Active Directory management

* IP address management though DNS & DHCP

* Group Policy Management

* Virtualisation technology, Hyper-V, or VMware

If you feel you have the necessary skills and experience to be successful in this role, click on "APPLY" today, forwarding an up-to-date copy of your CV for consideration in the first instance.

No agencies please.
