Opportunity:

Join a prominent construction consultancy's Procurement team and contribute to the advancement of technology procurement as an IT Procurement Specialist Advisor in London.

This rapidly growing consultancy seeks an experienced professional to oversee and execute procurement projects, shaping strategic decisions for IT categories.

As an IT Procurement Specialist Advisor, your responsibilities will include taking ownership of technology categories, managing contracts, conducting supplier performance reviews, fostering continuous improvement, and collaborating with stakeholders to build strong relationships. This role offers a chance to be part of a social and talented procurement team within a global consultancy that emphasizes sustainability and engages in eco-friendly initiatives.

Top Reasons to Apply:

Shape the success of the Procurement function within a leading construction consultancy

Collaborate with stakeholders and contribute to M&A integration

Competitive compensation and benefits package, including health and wellness programs

Work in a dynamic environment, utilizing your expertise in IT Procurement

Make a tangible impact on company performance in technology procurement, including Software, Telecoms, and IT Professional Services

Qualifications and Experience:

Proven experience in Indirect Procurement

Experience working in the public sector

Ability to work across multiple sub-categories within Technology

Security clearance is desirable

End-to-end procurement and supplier management experience

Strong communication and influencing skills

Experience with procurement systems and tools, analytical capabilities

CIPS qualification or working towards qualification (desirable)

Bachelor's Degree or equivalent work experience
