IT Systems Engineer

Company: Rubicon People Partnership

Location: Lymington

Category: computer-and-mathematical

IT Systems Engineer, Lymington, £40,000

As the IT Systems Engineer within this innovative manufacturer of cutting-edge technology, you will play a crucial role, working closely with the Head of IT to support, maintain, and upgrade the IT infrastructure.

Background & Benefits

With over 35 years of experience, the company excels with an extensive product range. They are leaders in their field, and a manufacturer for various industries, with quality and long-term performance a high priority.

Alongside a competitive salary and opportunity for career growth and development, the IT Systems Engineer will benefit from 24 days holiday (plus bank holidays), enhanced pension scheme, and discounted gym membership.

IT Systems Engineer Responsibilities

Install, manage, monitor, and upgrade server and infrastructure.

Administer Microsoft Server environments.

Support backups and replication, including disaster recovery planning.

Maintain accurate IT documentation.

Ensure compliance with Cyber Essentials certification.

IT Systems Engineer Skills & Experience Required

Experience building and administering VMware.

Proficiency in Microsoft Windows and Active Directory.

Strong knowledge of TCP/IP networking.

Software application installations, upgrades, and project support experience.

Preferred: 3+ years of relevant experience, ideally within a manufacturing environment.

Interested?

To be considered for this IT Systems Engineer opportunity, please submit your CV by applicating directly to this advert or reach out directly to Josh at Rubicon.

Our team at Rubicon reviews every application. Please ensure your CV is submitted in Microsoft Word. If sent as a PDF, it will cause delays.
