

JAVA / HP Non-stop Developer

[Apply Now](#)

Company: Maclean Moore Consulting

Location: London

Category: computer-and-mathematical

We are partnered with a reputable global consultancy that are recruiting JAVA / HP NON STOP DEVELOPERS or JAVA / TANDEM ARCHITECTS to work on a very exciting LONG-TERM CONTRACT.

Role: JAVA / HP NON STOP DEVELOPER OR JAVA / Tandem Architects

Rate: Up to £600 per day (inside IR35)

Location: London – Hybrid

Duration: 6 months (initially – view to extend)

Role description:

* Experience of developing Java applications that are ran on the HP Non-Stop (used to be called Tandem) Java system.

* In depth knowledge and experience with HP nonstop Tandem systems, including Hardware, Software and architecture

* Experience of coding Java that is ran on HPNS(Tandem) as we're finding issues and want to

understand what other things to look out for.

Key responsibilities:

- * Ensure HP Non-Stop Tandem platform is successfully integrated and operated within the company's business environment
- * Strong problem solving skills and the ability to trouble shoot complex issues related to NonStop systems, including Hardware, Software and Networking.
- * Participate in, support and manage the deployment of applications within test, pre-production and production environments
- * Installation and testing of new release/products like IBM MQ, Python, NonStop Webserver, Batch definition
- * NonStop Security management
- * Database (SQL/MP and SQL/MX) management
- * System / Application performance analysis
- * NonStop Network management
- * Participate to major project (Stilton, ORT, DC 2+2, SCF ...)
- * Perform capacity management and performance analysis
- * Experience of running and supporting Java on HPNS(Tandem) would be useful

Key skills:

- * A bachelor's degree in computer science or a master's degree in mathematics, Civil

Engineering or equivalent (preferred)

- * A proved experience of min 5 years on the NonStop Environment
- * Strong knowledge of System Administration and Network Guardian & OSS
- * Programming language skills: TACL, Python, Yaml, Shell Script
- * Strong knowledge on the NonStop Infrastructure and tools:
RDF/TMF/SCF/Pathway/Safeguard/DSM/SCM/MQSerie, SQL & SQL/MX, XMA, XUA,
XCM, SSHCOM, ODBC, ITPWeb...)
- * Deep knowledge in Performance analysis (Measure, SQL explain plan ...)
- * JAVA is a plus
- * Able to demonstrate your ability to learn ICT technologies and share your knowledge
- * Training newcomers on the Tandem technology

If you are interested and have the relevant experience, please apply promptly and we will contact you to discuss it further.
